Sheriff's Bills Double in Eleven Years -Passed by Supervisors Without Itemization-Amazing Population of a Pleayune Jall, at So Much Per Head.

Orange county is Governor-Chairman Odell's home county, the incubator of

There are a good many things relating to the management of county affairs in which the people of the county would like to be enlightened, but just at present they would like more than anything else to know what has become of a report made more than eight months ago to the Board of Supervisors by a special committee from the board appointed to inquire into certain matters connected with the administration of the Sheriff's office. Orange county people would like to know what has been done with the report, because it contained facts of consequence to the county and mighty interesting to Sheriff Herman and others associated with him in the discharge of his duties during his term of office; also because they believe now that the board's treatment of the report constitutes a typical instance of Odellism reduced to its Orange county terms.

The report in question and its history before the Board of Supervisors have never had the publicity they are entitled to. The Board of Supervisors of Orange county

as well as nearly all the other departments of county government, is dominated by the Governor-Chairman, through his lieutenant, Senator-Supervisor Goodsell of Highland Falls, a leader in the Governor's railroad committee in the Senate. The office of Sheriff of Orange county is regarded as the biggest and juiciest plum in the county pudding, and Jacob Herman of Goshen, Sheriff for 1901-03, was nominated for the office by Odell personally.

More than ordinary interest began to attach to the administration of affairs in the Sheriff's office as far back as 1902, when this table was compiled and made public in Orange county.

That is, in the eleven years that had elapsed since Odell secured complete con-trol of the county machine in 1892 the Sheriff's yearly bill had about doubled in amount, although the increase in the popuamount, although the increase in the population of the county did not exceed 15 per cent. The smallest bills on the average for any Sheriff's term were presented by Sheriff Beakes, who was on the "outs" with Boss Odell because at convention time he refused to retire from the candidacy in favor of Odell's brother, "Hike," the present postmaster of Newburgh, who had decided that he wanted the job. The annual report of the State Prison Commission for the year 1902 showed that there were 1,343 prisoners consigned to the Sheriff of Orange county in that year, that number being exceeded by only seven counties in the State, nearly every one of which had a population at least twice as large as that of Orange, and the fifty-three remaining counties, many of them with a much larger population than Orange, had totals of

ways paid fees to the incumbents, and good fat fees at that. In the light of the pub-licity imposed by the resolution, though, several of the Odell Republicans hesitated

to put themselves on record against the measure. The resolution was carried, vote, 13 to 10. The report of the proceedings eontains this supplementary note.
"Not voting, Goodsell and the chairwith the passage of the resolution a

with the passage of the resolution a measure of economy seemed certain of adoption. What happened? Nothing until April, 1903, six months after the resolution had been passed, and then Senator-Supervisor Goodsell, Governor-Chairman Odell's representative on the board, told the board that he and the other representatives of the country of the country of the country of the country of the resolution of the country of the count atives of the county in the Legislature had not introduced the bill at Albany, as they had been formally instructed to do.

Senator Goodsell really told the board that the county's representatives at Albany didn't know just how such a bill should be framed, and the board accepted the explanation. At the time when the Senator-Supervisor confessed his inability and the inability of the other representatives of the county in the Legislature to draw a proper bill to be introduced at Albany the Legislature was about to adjourn and the passage of a bill in that session was impossible.

Comparing the bills presented by the
Sheriff and County Clerk of Orange county
for the preceding three years with the

Clerk in other counting it was estimated average incomes of the Sheriff and County Clerk in other counties, it was estimated that the failure of Goodsell, Bedell and Orr to carry out the instruction of the board will cost the county just about \$40,000, as no change can be made in the manner of paying the county officers during their term of office. Both Goodsell and Bedell are up for reelection this fall. As Goodsell is a member of the Governor-Chairman's railroad committee in the Senate, so Bedell is a member of Odell's railroad committee in the Assembly and chairman of the committee.

committee in the Assembly and chairman of the committee.

Before Senator-Supervisor Goodsell told the board that he hadn't done what he had been instructed to do, a resolution had been passed under pressure imposed by publicity which said that "it had come to the knowledge of members of the board that a great number of arrests are made of alleged tramps in different places in the county and that it appears that some of these prisoners are unjustly held for a long time without sufficient cause," and authorizing the appointment of a committee to "inquire into the matter and report to this board, who is responsible for this seeming abuse of power and the miscarriage of justice and this useless expense to the county."

The chairman of the board appointed to committee of three, one of whom was senator-Supervisor Goodsell, Odell's henchman. He refused to serve, as also did the man. He refused to serve, as also did the two others named. Finally, a committee composed of Col. Charles H. Weygant, a she gave. She said that former Mayor of Newburgh and an inde-

pendent Republican, and Supervisors Wells of Goshen, an Odell machine man, and Ward of Pine Bush, a Demograt, was selected. Col. Weygant was named as chairman of the committee. His term of office as Supervisor expired on Jan. 1, 1904, but he came before the board on Jan. 5 to present the committee's report. He waited all day without getting the courtesy of a hearing. At a meeting of the board three days later he appeared again, and, after waiting several hours without any recognition officially, he asked the privilege of submitting the committee's report, which was granted, after objection had been made by some of the machine men that Col. Weygant was no longer a member of the board. Among other things the report said:

of the board. Among other things the report said:

The county law * * provides that no account against the county shall be audited by a Board of Supervisors or a committee thereof * unless it shall be made out in items and accompanied with an affidavit that the items of such accounts are correct, and that the disbursements and services charged therein have been in fact made or rendered, or are necessary to be made or rendered, or are necessary to be made or rendered at that session of the board, and stating that no part of the amount claimed has been paid or satisfied.

The Penal Code, Section 117, provides that a public officer or person holding a public trust or employment upon whom any duty is enjoined by law, who shall wilfully neglect to perform the duty, is guilty of a misdemeanor, and that such offence is punishable by a fine not exceeding \$1,000 or imprisonment not exceeding two years, or both.

Some of the Sheriff's and Under Sheriff's Hock fon 1899 have affidavits attached, but not one of the Sheriff's or Under Sheriff's bills for 1901, 1902 or 1903 has an affidavit written upon or attached to it. They have, however, all been audited and paid.

The report says further that the investigation developed the "surrorising fact"

The report says further that the investigation developed the "surprising fact" that during the period under consideration no committing magistrate in the county had, in cases of persons found guilty of vagrancy, filed with the County Clerk, as required by the Criminal Code, any certificate of conviction or testimony taken before him as to the vagrant's place. any certificate of conviction or testimony taken before him as to the vagrant's place of residence. Vagrants who have acquired a legal residence settlement in any tewn are a charge upon the town during their term of commitment, and the result has been in Orange county that the expense of commitment and maintenance has, according to the report, been thrown on the county as a whole instead of on the towns separately, as it should have been. Goshen, a town of only a few thousand population, the home of Sheriff Herman and dominated politically by Boss Hock, father of Under Sheriff Hock, sent to the county jails during the period investigated 483 vagrants, as compared to 148 sent by the city of Newburgh and 37 by Middletown, places with a population many thou-

the city of Newburgh and 37 by Middle-town, places with a population many thou-sands in excess of Goshen's.

The report also points out the fact that tramps are a State, not a county or town charge, although persons guilty of stealing a ride on a train may be committed to the county jail at the county's expense. Go-shen, the home of Odell's Sheriff, during the period considered the report shen, the home of Odell's Sheriff, during the period considered, the report says, sent to the county jails 266 tramps and 295 train riders as compared with 1 train rider by Newburgh and 108 by Middletown. The expense to the county of the commitments by Goshen for a total of 9,428 days was \$5,125, as compared with \$2,602.29 for Newburgh's and \$2,587.93 for Middletown's. An examination by this committee of the commitments to the county jails," says the report, "shows that during the periods investigated, over 1,700 persons had been charged with the offences named and committed to the county jails on sentences aggregating 31,000 days at an expense to the county of over \$16,000." The report also says that in the opinion of the committee nineteen out of every twenty convicted for stealing rides on trains were in fact either vagrants or tramps and should

in fact either vagrants or tramps and should have been dealt with as such.

The report also says that in some cases the county has paid as high as \$10.25 a week for board of prisoners in the county jails, \$3.25 a week being charged by the Sheriff for board of the person as a prisoner and

printed in the proceedings of the board for 1903.

Senator-Supervisor Goodsell, Governor-Chairman Odell's henchman on the board, came to the rescue and moved as an amendment that the report be submitted to Mr. Wells for further examination. The motion to have the report printed was lost by a strictly machine vote. Then a resolution was passed calling for the appointment of two other members of the board to serve with Mr. Wells in reconsidering the report and authorizing the committee to report on the report which Mr. Wells had refused to sign. Wells was made chairman of the committee, and, for all the people of Orange county know to the contrary, he is still serving. Nothing has been heard of the report since. The other two members of the committee are Mr. Brewster of Blooming Grove and Mr. Remey of Greenville. This is what Chairman George Moshier of the board said when asked what had become of the Committee:

"I don't know; maybe their efforts have killed them."

It is the privilege of Orange county voters to guess in what the committee's efforts have consisted.

A few evenings ago he heard that his mother was living in Clark Mills. He decided to see if there was any truth in the story, and he went to that place. Presenting himself at a house, he asked the woman who met him if she knew of any one of the name of Berg. She replied that her name was once Berg, but that she had since married. By relating incidents of earlier days it was shown that Berg had found his mother. Both were greatly surprised and affected over their discovery.

DOUGLAS'S BAY STATE FIGHT.

PICTORIAL CAMPAIGN IN HIS RACE FOR GOVERNORSHIP.

The Democratic Candidate Using Advertising on a Grand Scale-Pictures of His Struggles in Life-Laber Union Is Opposing Gov. Bates's Reclection.

Boston, Oct. 22.-Although they know that Gov. Bates and the entire Republican State ticket will be elected next month there are no signs of discouragement on the part of the Democrats in this State. They have started on an aggressive campaign. Candidate Douglas has opened his "barrel" and opened it wide and from now on he will prosecute the campaign with vigor. Mr. Douglas is not an orator, but he knows the value of advertising. Instead of making a personal appeal to the voters, columns of space have been purchased in the newspapers of Boston and all the cities, in which the Democratic candidate is pictured as a plain, self-made man. In addition to this circus posters of large size and printed in brilliant colors have been prepared and the State is to be plastered from one end to the other with pictures depicting the life

of the Democratic candidate. The posters are in a series. The first shows the boy Douglas pegging away at shoes when only 7 years old. At the age of 15 he is at work in a cotton mill at a daily wage of 33 cents. The third of the series represents the candidate driving a prairie schooner" across the plains. In the fourth he is shown working at the shoemaker's bench when just 21. Another picture represents him as the employer of three or four hands in a shoe shop. The sixth shows Mr. Douglas's first shoe factory along side of the present mammoth structure.

The greatest card the Democrats have to play is appealing to the labor element to vote for Douglas, and there is hardly a doubt that the candidate's record of treatment of his employees, as well as

He became a cowboy and spent ten years on the plains. Returning here when 25, which was six years ago, he married May Miller. Whatever may be the result of the unique campaign planned by Mr. Douglas, the denunciations of Gov. Bates by the labor unions, it is believed that he will be reelected by fully 30,000 plurality, and possibly the figures will reach 40,000.

\$3,500 JOB FOR M'COOEY. Grout Finds Room for the Displaced Head

of the Civil Service Commission. the sentence imposed yesterday on Antonio

The announcement yesterday that John H. McCooev, who was recently bounced from his \$6,000 a year place as president of the Municipal Civil Service Commission by Mayor McClellan, has been reinstated in a \$3,500 job as deputy collector of arrears and assessments in charge of the borough of Brooklyn, excited interest in political circles. While the appointment was made Di Carlo is 42 years old, and he may get about sixteen years' reduction in his sentence for good behavior.

On the night of Sept. 14. Di Carlo quarrelled with Antonio Deleo over five cents in a card game, and shot Deleo. In trying to escape he shot three other persons, two men and a woman. Deleo died, but the others recovered.

Hugh O. Pentecost, Di Carlo's counsel, asked for clemency. Justice Kenefick, said that he thought that all the clemency possible had been exercised when Di Carlo by Edward A. Slattery, collector of arrears and assessments, there is no doubt that it was dictated by Comptroller Edward M. Grout, the bureau of arrears and assessments being included in his department.

Mr. McCooey has been named as the successor of the late Samuel L. Garrison, who said that he thought that all the clemency possible had been exercised when Di Carlo was allowed to plead guilty to manslaughter. "On that charge," said Justice Kenefick, "I will sentence you to twenty years, the maximum term. On two of the assault charges I will give you five years each, and for the other six years."

Di Carlo almost collapsed. Every day he has been in court he has feared that he was about to be put to death. After he was arrested he set fire to his clothing and then tore off the bandages which the doctors put on his burns.

Assistant District Attorney Noll discovered that Di Carlo has served fourteen years in prison in Italy for killing his brother. He has been in this country two years.

died a few months ago.

Mayor McClellan, it will be recalled, in explaining the removal of McCooey and the other members of the Civil Service Commission, accused him of conniving at violations of the law regarding the suspension and amountment of laborers in at violations of the law regarding the suspension and appointment of laborers in the Park Department of The Bronx. Mr. McCooey contended that his displacement was really brought about by his refusal to take sides with Leader Charles F. Murphy of Tammany in the factional fight with Senator Patrick Henry McCarren. Mr. McCooey has long been active in Democratic politics in the Eighteenth Assembly district in Brooklyn and has been a firm adherent of McCarren since the factional warfare started.

adherent McCarren since the factional warfare started.

It was predicted at the time of his removal from the Civil Service Commission that McCarren's influence with Comptroller Grout would soon land him in another official job, Mr. Grout having already provided for several of McCarren's partisans who had become victims to the official axe. The incident is regarded by the Democratic politicians as foreshadowing an active renewal of the McCarren-Murphy hostilities just as soon as the election is over.

of a long contract agreeing to purchase and sell jewelry.

Attorney Clarence Ballentine of Scranton, who has been retained by some of the men, says he believes the judgments can be opened and that the court can be convinced that the company's agents have been guilty of fraud and deception.

Most of the signers are foreigners, who believed from what the agents read to them, that they were merely signing an agreement to examine goods.

EXHIBITION TUESDAY, Oct. 25, and throughout the week. ENGINEER WAS UNCONSCIOUS.

Fireman Found Him in Time to Avert a Railroad Collision, SPRINGPIELD, Oct. 22.-Fireman Hamb

by his presence of mind averted a col-lison on the Illinois Central to-day which might have resulted in loss of life. A special passenger train, with Engineer Ralph Hill at the throttle, left this city today. It was to meet the northbound limited at Farmersville.

When near the siding at Farmersville Hamb noticed that no effort was made by Hill to slow down. Turning to the engineer, he saw Hill lying prostrate and unconscious on the floor of the cab. Hamb stopped the train and then rushed it on the siding just as the northbound passenger dashed by.

Engineer Hill was brought to this city and taken to a hospital. He is in a critical condition. It is believed his head was struck by the spout of a water tank as he was looking out of the cab window.

METHODIST PARSON DEPOSED. Put Out of His Pastorate Because He Opposed Church Fairs.

WILEESBARRE, Pa., Oct. 22 .- The Rev. Wilmer Evans Comman, pastor of the Doranceton M. E. Church, was removed today owing to his pronounced opposition to church fairs, entertainments, suppers and teas. The Presiding Elder, L. C. Mur-dock, took action at the behest of some members of the congregation.

The church is under a \$6,000 debt, and

The church is under a \$6,000 debt, and the church societies have been raising the money by giving suppers. Owing to Mr. Coffman's opposition to them, the attendance has fallen off. He contends that such entertainments appeal to the lower nature, belong to the service of mammon, are a sort of trading stamp adjunct to church work, make the people spend three dollars to net one to the church fund, teach the congregation extravagasce, rob the community and result in spiritual poverty.

SUFFERING IN FALL RIVER. The Great Textile Strike Is Causing Destitution Generally.

FALL RIVER, Mass., Oct. 22 .- The stolidity of the striking mill operatives here, at the end of the thirteenth week of idleness. is without parallel in the history of textile strikes in this country. Actual suffering has reached the stage where the best efforts of charitable societies are not sufficient

Bishop Stang and the Jewish rabbi in this district have both called for relief. Ensign Squarebriggis of the Salyation Army

"We are feeding about 1,500 a day. We find the children very hungry and destitute of warm clothing."

For a week or more several of the large owners in local mills have been urging treasurers to reopen the mills and try to establish the new wage scale. Some of the treasurers are convinced that the opera-tives will not respond largely, even though they get another opportunity to work. but they also feel that they should not be placed in a position of responsibility for the scute suffering which is already at

EXAMINE YOUR DENTIFRICE Acid and grit, deadliest enemies of the teeth, abound in cheap dentifrices. Fine perfumes do not make fine dentifrices. Your

teeth deserve better of you than to be offered up a sacrifice to your pocketbook.

SOZODONT

is of proven value. Sixty years is a pretty good test. No acid, no grit in Sozodont. The Liquid penetrates the little crevices and purifies them; the Powder gives a bright and polished surface.
